

[SUPERAntiSpyware 64 Bit](#)

The screenshot displays the SUPERAntiSpyware Professional interface. At the top, the title bar reads "SUPERAntiSpyware Professional Subscription Active". Below this is the application logo and the slogan "Remove ALL the Spyware, NOT just the easy ones!".

The main area is titled "Quarantined Items" and is divided into two sections:

- Realtime Protection:** Items detected and removed during real-time protection. The list includes:
 - Trojan.Agent/Gen-Backdoor.Process
 - Trojan.Agent/Gen.Process
 - Rogue.Agent/Gen.Process
 - Trojan.Agent/Gen-FakeAlert.Process
 - Trojan.Agent/Gen-FraudPack.Process
 - Trojan.Dropper/Gen-NV.Process
- Scanner Items:** Items detected and removed during a scan operation. The list includes:
 - Quarantine - 02-01-2011 - 10-01-07
 - Quarantine - 01-31-2011 - 14-04-51
 - Quarantine - 01-30-2011 - 10-37-33
 - Quarantine - 01-28-2011 - 15-08-45
 - Quarantine - 01-27-2011 - 14-38-59

To the right of the list are three buttons: "Restore", "Delete", and "Delete All". Below these is the "Automatic Cleaning" section, which has a checked checkbox for "Delete items older than:" followed by a text input field containing "30" and the word "days".

At the bottom of the window, a "Home" button is visible. A note at the bottom left states: "The above items have been quarantined by SUPERAntiSpyware. You may restore or delete these items. Once deleted from the quarantine, you cannot restore the items."
